

Up-Stacker

Quickly stacks CD, DVD & Blu-ray cases

Collects cases at a rate of up to 1200 cases per hour

Suitable for use with the SpeedWrapper series

Independent unit –
can be fitted to a variety machines

Light-weight, table-top unit

Fully transportable

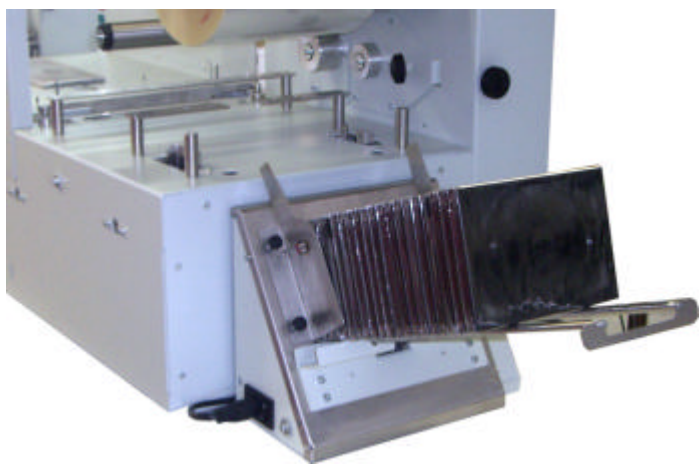

The **Up-Stacker** from Verity Systems has been designed to collect media cases and present them in a neat stack or row ready for an operator to lift them in one easy movement. The Up-Stacker allows for the automatic collection of cases and saves the operator valuable time.

The Up-Stacker can be placed ready to collect the output of cases from production machines such as SpeedWrapper from Verity Systems. As no electrical interconnections is required between the Up-Stacker and the production machine, the Up-Stacker can also be used with a variety of other machines.

With the use of the Up-Stacker, a single operator can simultaneously feed the input hopper and remove the wrapped cases quickly and efficiently.

Up-Stacker
